

put the...attach it to your equipment so you can put it on. The best solution which will not happen and which should happen is organic farming. That is the answer, then you will not have to worry about pests. You can take care of them in the natural way. Crop rotation is a good solution. Many of our people are starting to look at that. It is a cost-saving and it also prevents a lot of these things from happening. But the whole theory is the chemigation is not any more dangerous, or is a lot less dangerous than any other ground equipment that you use. So I urge you to support the bill.

PRESIDENT: Thank you, Senator. Senator Schmit, you can either speak now or there are three, four others if you wish to close after them. You wish to speak now? Senator Morehead.

SENATOR MOREHEAD: (Response inaudible.)

PRESIDENT: Question has been called. Do I see five hands? I don't. I do now. All those in favor of ceasing debate vote aye, opposed vote nay. The motion is to cease debate. Twenty-five votes required. May we have your cooperation, please. Aye or nay, the question is shall the debate close. Have you all voted? Record the vote, Mr. Clerk.

CLERK: 28 ayes, 0 nays to cease debate, Mr. President.

PRESIDENT: Motion carries, the debate is closed. Senator Schmit, you may close on the debate.

SENATOR SCHMIT: Senator Scofield is lecturing me on what I should say in my close, which she does frequently, but not usually on the floor like that. But I do agree with what she has suggested and that is, as Senator Johnson has indicated, the problem of funding has not been addressed in most of these issues. It is going to have to be addressed. So, while this is a major bill and a major step forward, I think that as Senator Johnson has indicated and Senator Scofield has reinforced that comment, that we need to take a look at how we are going to provide for cleanup and how we are going to provide for the very expensive costs of some of those cleanups. That is why it is important that we try to implement this bill as effectively as possible to prevent the damage to the water systems, underground water supplies of this state. I want to say in closing, as has been
